HOW TO USE THE ASTHMA DIARY

Date: Write the date of the first day your diary is used.

Asthma Symptoms: Score the symptom between 0 and 3.

Medicines: List all the controller and reliever asthma medicines used (eg. Ventolin® 2 puffs as needed). Use one √ for each puff of medicine.

Notes: List your child's activities and possible asthma triggers on the days where your child has symptoms. Also, list any questions or concerns to be discussed with your doctor.

GOOD ASTHMA CONTROL IS:

- Normal Activity
- Normal Sleep
- No daytime asthma symptoms
- No need for Reliever medicine
- No emergency visits for asthma
- No missed school or daycare for asthma

Use your
Asthma
Diary!
